SUMMARY OF THE REASONS FOR DECISION:

The video recording entitled *Yamahama Mama* has been classified as:
Objectionable.

The video recording consists of a feature, *Yamahama Mama*, and a trailer, *Yummy Youngies*. The feature consists of six scenes of explicit sexual activity. All of the activity appears to be friendly and mutually beneficial in nature. The trailer presents two females, both of whom present as young persons, masturbating themselves and each other. The trailer focuses on the youth and apparent sexual inexperience of the females, and presents these factors for the sexual arousal of the viewer. The publication is therefore considered to promote and support the exploitation of young persons for sexual purposes. This material is deemed to be objectionable under the Films, Videos, and Publications Classification Act 1993, and the rights and freedoms contained within the New Zealand Bill of Rights Act 1990 cannot be applied to the publication with this material intact. Excision of the trailer was recommended. However, the owner of the publication failed to respond to the excision notice within the specified time period, and the publication is therefore classified as objectionable.
